

Toluca Lake Magazine Questions from Jenna Anderson (Jenna@911media.com)

1. I saw there was a little information in the document you sent me about how BUBAAHS first got started — sounds like sometime between 1987 and 1991? Do you have any more details on this? How did you personally get involved and what are some of your memories from those early days?
2. How has the group grown and changed over time? How many members are there currently?
3. Who were some of the original founding members? Who are some of the active members now?
4. What is a typical BUBAAHS get-together like?
5. Do members get together for other activities outside of the regular meetings, such as car shows, etc.?
6. How is BUBAAHS involved in documenting or preserving local automotive history? What are some of your favorite automotive-related resources and places in the area (museums, stores, historic sites, car shows, etc.)?
7. How long have you lived in the area, and how have you seen it change over time? What are some of your favorite local places and memories? Can others in the group share some of their memories/stories as well?
8. Can you and/or others in the group share some of your favorite factoids or areas of local history you think are the most interesting? Do you have any vintage photos you could share, either from past BUBAAHS meetings and events or interesting snapshots from your life or career?
9. What else would you like the Toluca Lake-area community to know about BUBAAHS?
